SKILLS

- Front-End

JavaScript (ES6+), TypeScript, React, Next.js, Tailwind.

Redux, Redux Toolkit, APIs, Axios, React Router, SEO, MUI, ShadCN, Formik, Yup, CSS, SCSS, HTML5, Responsive Design, Grid, Flexbox.

- Back-End

Node.js, Express, MongoDB, Mongoose, **MERN**, **RESTful APIs**.

AWS (Cloud): AWS Lambda, API Gateway, DynamoDB, S3, EC2, Cognito, SQS, RDS, IAM, AWS CLI, AWS SDK.

Prisma, Stripe, JWT Authentication, Clerk Authentication, Zod, Cloudinary, Multer.

- Version Control & Testing Tools

Git, **GitHub**, **Jest**, **React Testing Library**, Webpack, Docker.

- Languages

English: C2 (Work Related), C1 (General).

Freelance Projects (2023 – Present)

Marketplace (Omaleon.com):

Next.js, TypeScript, MongoDB, Stripe, Clerk, Zustand, Radix

Engineered a full-stack e-commerce platform from scratch, supporting product listings, categories, billboards, and secure checkout. Implemented Stripe for seamless payment processing and Clerk for authentication, ensuring secure transactions. Designed and built multiple core modules (filters, pagination, CRUD operations and admin tools), delivering a scalable, modern, and user-friendly marketplace experience.

Administrative Dashboard:

Mongoose, JWT, Clerk, Zod, React Hook Form, TanStack Table, Cloudinary

Built a dedicated admin system to manage users, products, and orders for client projects. Implemented JWT authentication, role-based access, validations, and pagination to streamline data workflows. Designed an intuitive UI with charts and management tables, providing clients with a centralized and efficient tool for business operations.

Automotive Catalog:

Next.js, Stripe, HeadlessUI, Lucide, Zustand

Designed and deployed a vehicle catalog for a local dealership, enabling admins to manage 100+ cars with images, pricing and availability. Implemented CRUD functionality and a responsive UI with categories and car versions, improving data accuracy and reducing manual updates.

EDUCATION

Self-Taught Coursework: HTML5 & CSS, Tailwind, JavaScript, React, Next.js, MERN, Artificial Intelligence.
